Aristotelis Tsampasidis

Web developer

Junior Web Developer with a recent completion of a comprehensive Full-Stack Bootcamp and personal projects. Leveraging a robust sales background, I've acquired and practiced skills in responsibility, teamwork, and an unwavering commitment to improvement. I am looking forward to bring these qualities to the forefront of web development. My aim is to position myself as a valuable investment for the long term, contributing not only to my personal growth but also to the sustained success of the team and its future endeavors.

EXPERIENCE

Bootcamp Datalabs
Fullstack Development

09/2023 - 12/2023   *Thessaloniki*

I solidified my understanding of web development fundamentals by successfully creating a full-stack web application involving work with HTML, PHP and CSS.

- Developed multiple pages, including a form page, incorporating frontend PHP,HTML,CSS validation for enhanced functionality.
- Established backend connectivity and ensured data persistence by employing PHP and MySQL.
- Strengthened backend security with input validation, user authentication, and robust SQL injection prevention measures to mitigate potential vulnerabilities and threats.

Specialty Retail
Sales Specialist

10/2018 - 07/2023   *Amsterdam, Netherlands*

Managed operations for a specialty retail business in Amsterdam, focusing on compliance with local regulations and ensuring a positive customer experience

- Led the team to achieve a remarkable 10% increase in sales within a one-year period through strategic initiatives and effective collaboration.
- Enhanced customer experience through collaborative efforts with the team, organizing monthly retrospective meetings to collectively analyze areas for improvement and identify opportunities to enhance our services.
- Successfully earned two promotions in my five-year tenure, showcasing my dedication and continuous growth within the organization.

EDUCATION

Diploma in Forestry and Natural Environment
Aristotle University Thessaloniki

10/2009 - 04/2017

Courses

- Diploma thesis: Comparative phenotypic diversity of natural population of Lotus Corniculatus L. from different areas of Greece under drought stress.
- Specialization field: Range Science-Wildlife Biology and Freshwater Fisheries.

SKILLS

PHP   MySQL   AJAX   REST APIs   JavaScript   React   HTML5   CSS   Git   Wordpress

PERSONAL PROJECT

Personal Face Detection Project (07/2023 - 09/2023)

- Expanded knowledge and skills through the development of a personal face detection project web application, involving work with React.
- Implemented the integration with a third-party API providing face detection features, and managed error cases for a smooth and reliable user experience.
- Developed a robust logging mechanism to enhance the monitoring and debugging processes, ensuring effective tracking and analysis of application activities.
- Users can quickly and easily experience face detection by pasting image links into the input field.
